Part 01

About Me

BASIC INFORMATION

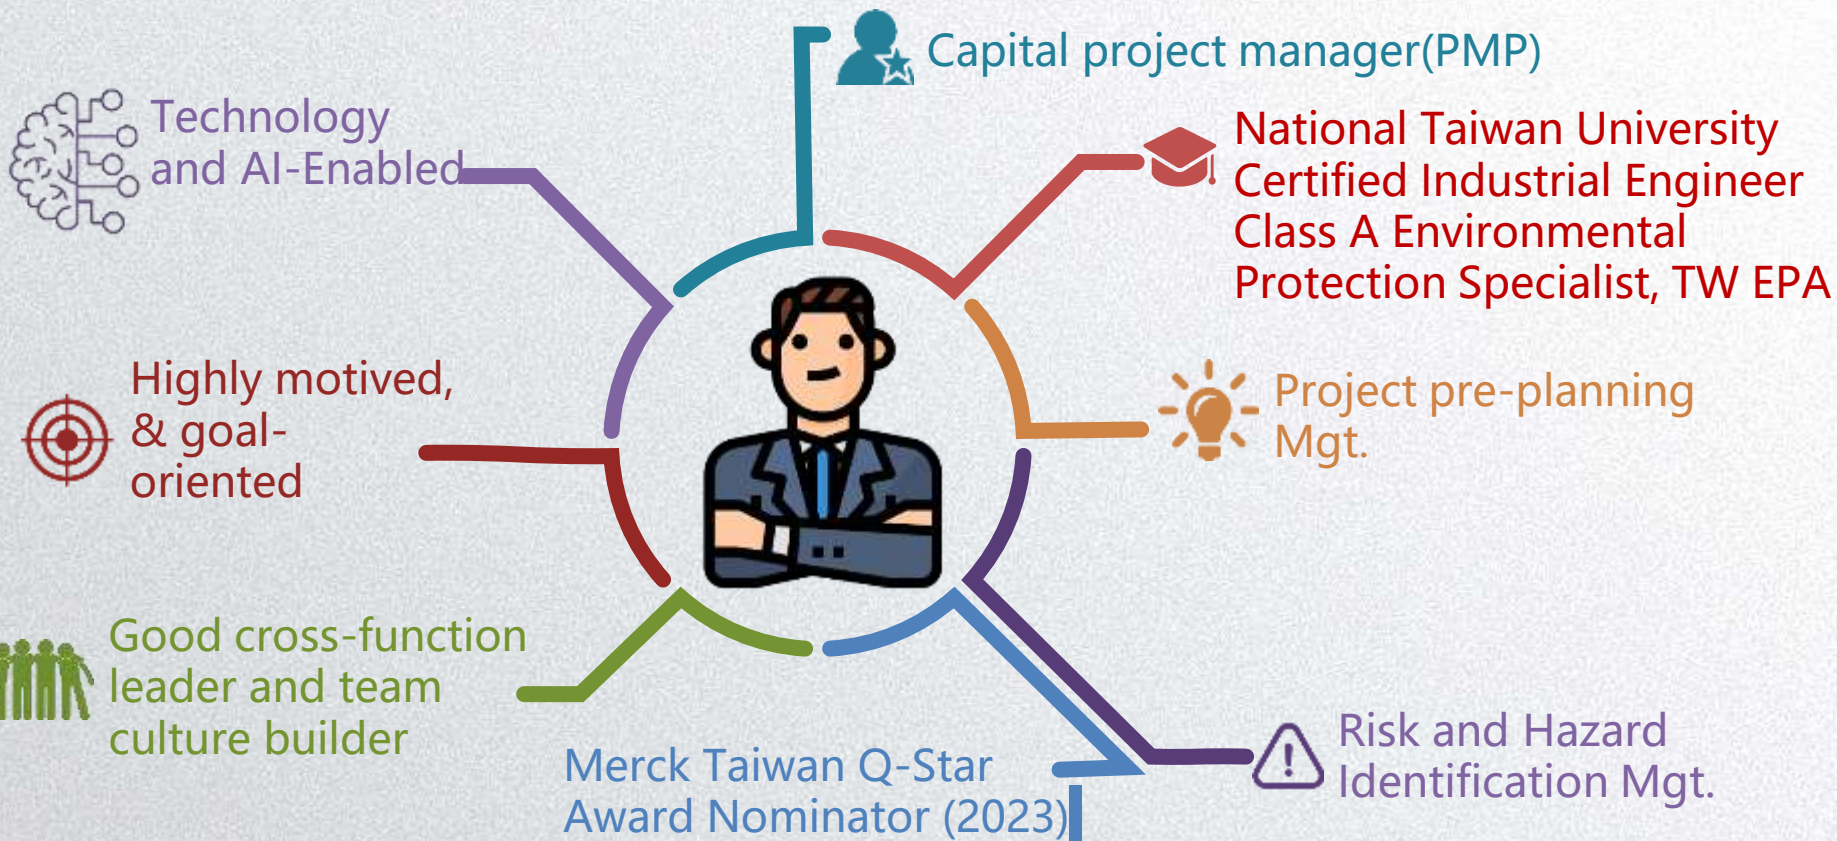

▶ Profile

▶ Background

▶ Education

▶ Career

● About Me

About Me - Career

2011.12

Process R&D Engineer

-Formosa group

- Advanced green tech processes research and development.
- Basic Design and Procurement.
- Commissioning and Start-up.

2017.09

Advanced Project Manager

-Formosa group

- Led **\$1.2B petrochemical project** from R&D to FEED
- Secured high-value contracts and technical services
- Managed **U.S. environmental and permitting approvals**

2022.09

Capital Project manager

-Merck

- Delivered a **€12M capital investment project**
- Led **FEED planning**, financial analysis, and environmental permitting
- Nominated for **Merck Taiwan Q-Star Award** for high-impact execution.

2023.12

Senior Project manager

Foxconn

- Leading the development of EV software for CEER. **(Saudi Arabia's first electric vehicle brand)**
- Overseeing a 10+ engineers and coordinating multiple suppliers to ensure on-time, budget-compliant delivery.

Present

Major Project:

- Sunshine project (Louisiana, USA 1.2B USD)
- 河靜鋼鐵 Wastewater Plant Project (VN, 30 M USD)
- Specialty production line project (TW, 3.5M Euro, Merck Award candidate)

- Aroma Plant Tail Gas FGD Project(麥寮, TW)
- SM1/SM2 Revamping Project(麥寮, TW)
- Fine chemical facility project TW, €12M

- EV TSP platform RD project
- CEER EV HPC firmware, including SOVD and OTA orchestration

Part 02

About Skill

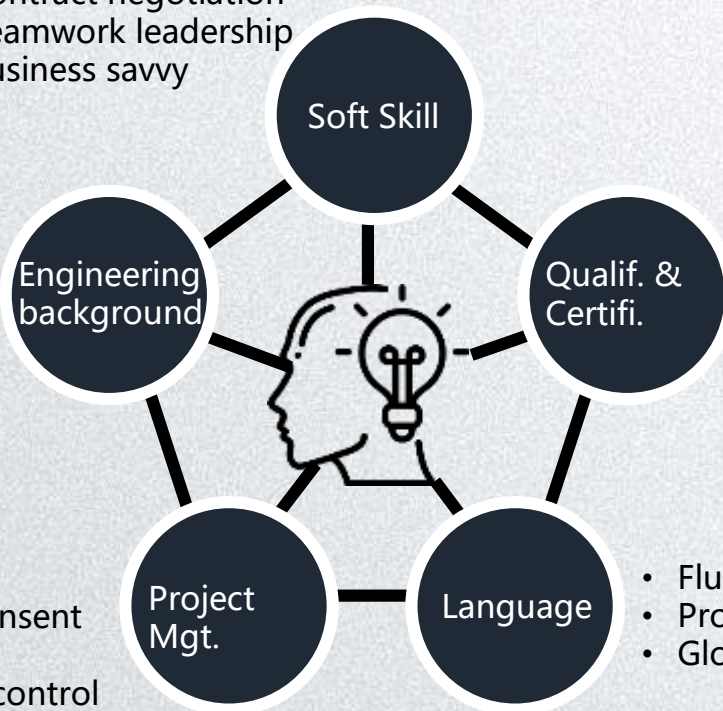

SKILL SET & ACHIEVEMENT

▶ Skill Set

▶ Qualification &
Certification

About Skill

- Financial analysis
- Contract negotiation
- Teamwork leadership
- Business savvy

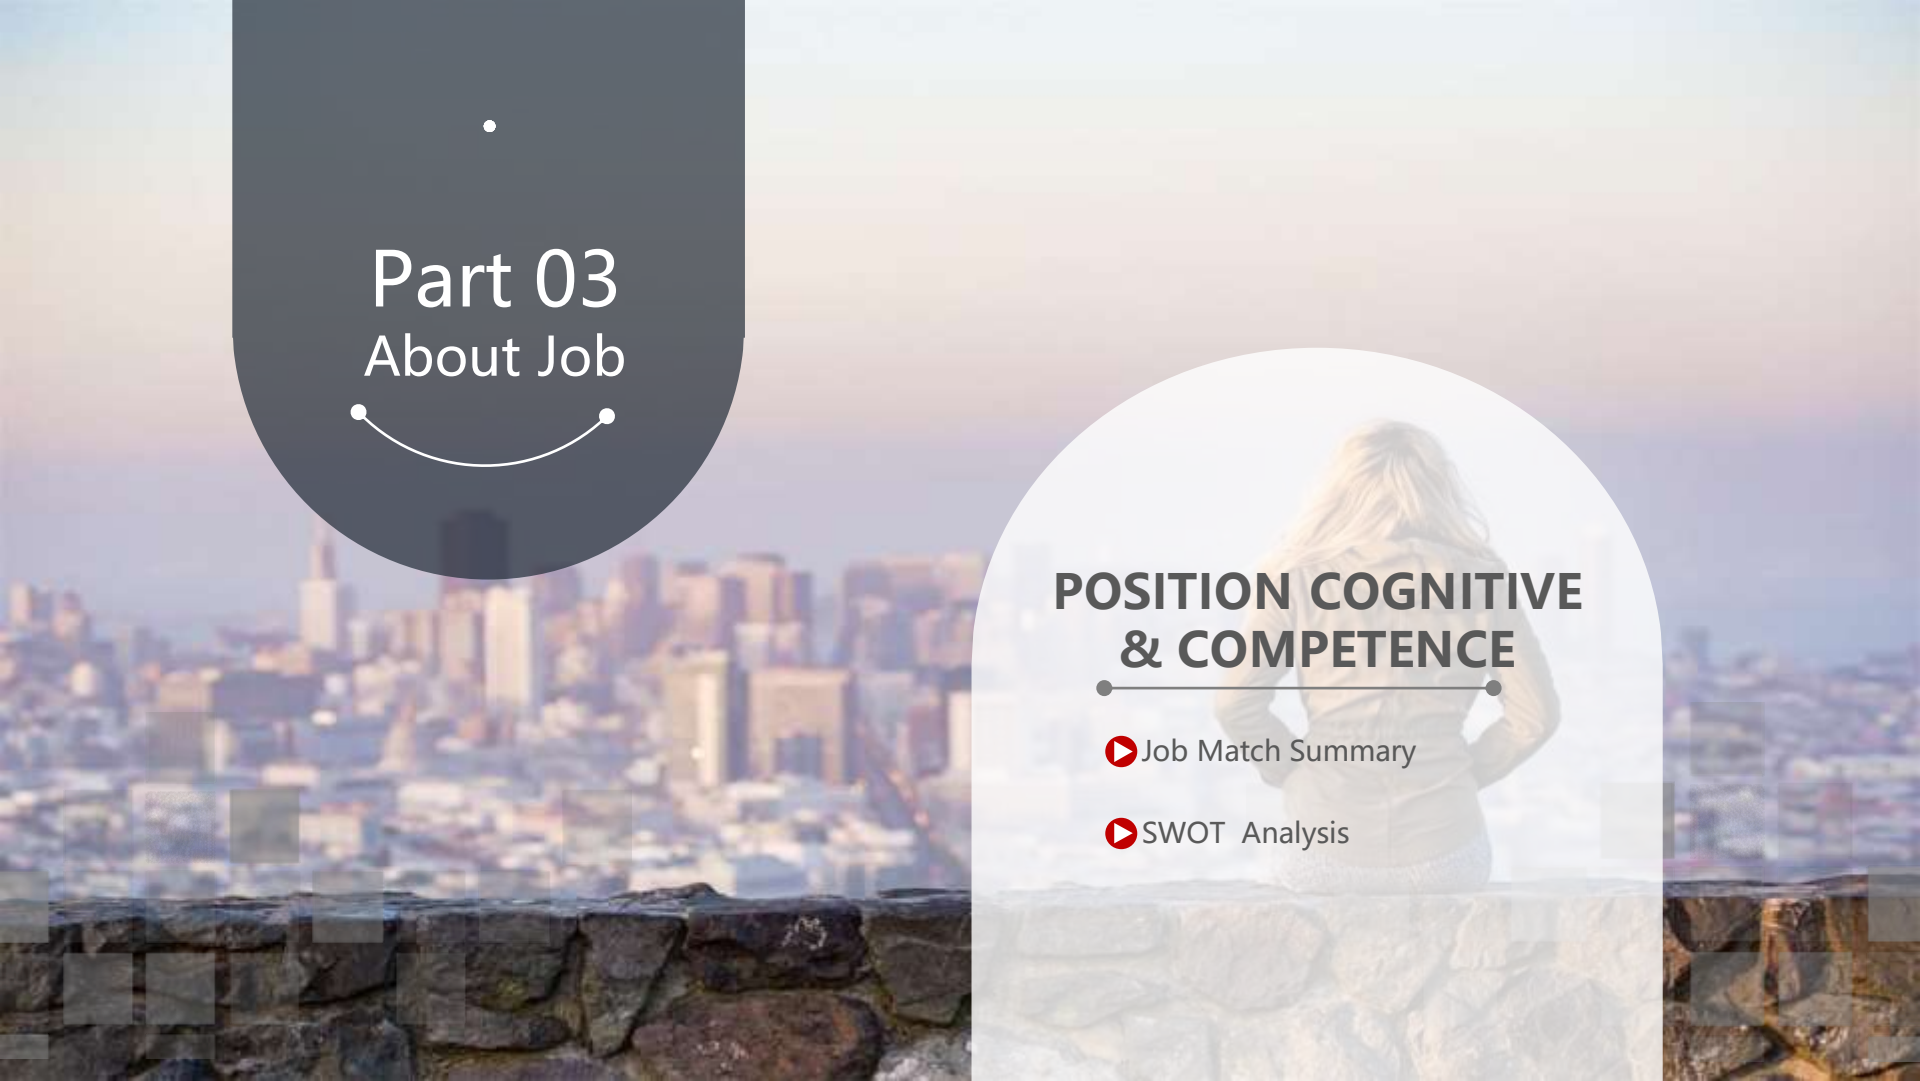

- Chemical engineering
- Net-Zero & water resource expertise
- Risk assessment

- PMP
- Certified Industrial Engineer
- Class A EPA licenses: air, water, waste
- Merck Q-star award nominator

- Stakeholder & consent management
- Schedule & cost control
- Multilateral communication

- Fluent in English (TOEIC 830)
- Proficient in Taiwanese Hokkien (台語)
- Global matrix organization experience

Part 03

About Job

POSITION COGNITIVE & COMPETENCE

▶ Job Match Summary

▶ SWOT Analysis

Job Match Summary

Category	Match	Summary
Industry Background	★ ★ ★ ★ ★	Chemical/energy and semiconductor supply chain; high-purity electronic chemicals and supply systems.
Project development & execution	★ ★ ★ ★ ★	Full-cycle FEED/FEL, \$1.2B / €12M / €3.5M projects; on time, zero change orders; strong execution track.
Executive reporting & stakeholder mgmt	★ ★ ★ ★ ★	Regular reporting to global VPs and senior executives on scope, risks, cost, and schedule; experienced in high-level decision support.
Financial Planning	★ ★ ★ ★ ★	CAPEX/OPEX, feasibility, FID, cost estimation; supported investment committees and tender analysis.
Leadership	★ ★ ★ ★ ★	~15 years leading cross-country, cross-functional teams; 10+ engineers; matrix and EPC experience.
Gas & chemical supply systems	★ ★ ★ ★ ☆	High-purity chemical supply system design/build for TSMC; ammonia SCR. No N ₂ generator or gas monitoring systems.
Project scale (\$10M+ system)	★ ★ ★ ★ ☆	\$1.2B and €12M project experience; single gas/chemical supply system project €3.5M (<\$10M).
Language & communication	★ ★ ★ ★ ★	English CV and international projects; Taiwan-based, bilingual for clients and authorities.

SWOT Analysis

Strength

- Engineering background
- Mega Project Mgt.
- Cross-function leadership
- Risk management skill
- Familiar with the chemical and physical property of N₂, O₂.

Weakness

- Lack of industry knowledge.

Opportunity

- Fast learner.
- Ambitious project manager
- Highly motivated and goal-oriented
- Ready to bridge technical execution with strategic planning

Threat

- Corps culture adaptation.
- New team members
